The mist and rain cleared in time for the race yet again, leaving good visibility but wet underfoot conditions this year. This might have been expected to slow the times, but the leading times were actually faster than last year.

Many thanks to all the helpers, particularly the marshals, without whom there would not be a race. We look forward to seeing you all again next September.

P.S. Did you run the 1984 Shelf Moor Race ?

If so, do you have a copy of the results ?

The file copy is missing, so if anyone can supply us with one they can have free entry to next year's race.
